

DVD Commentary Instructions

1. Plug the microphone into the mic-in port on the recording unit.
2. Clip the mic elements to your shirts approximately 8" below the chin. Try not to bump or brush against the mic during the recording.
3. Switch the 'Hold' button to the left to unlock the controls (so that the red is **not** visible).
4. Press and hold the 'On/Off' button. The unit's screen should light up.
5. To begin recording press once the button with the red dot on it (labeled 'Start/Stop'). The unit is now recording.
6. Switch the 'Hold' button to the right to lock the controls (so that the red is **is** visible).

Playback Tips:

- Set the DVD to playback at your normal viewing volume
 - Do not stop the DVD playback or the audio recording during the commentary session.
 - Have fun! Try to remember what expectations you had, how you felt, what you were thinking at the different stages of the event - anything that comes to mind that will be enlightening years from now!
7. When completed: Switch the 'Hold' button to the left to unlock the controls.
 8. Press once the button with the red dot on it (labeled 'Start/Stop'). This will stop the recording.
 8. Press and hold the button labeled 'On/Off' to turn the unit off.
 9. Switch the 'Hold' button to the right to lock the controls (so that the red **is** visible).
 10. Package the recording unit and microphone in the prepaid mailer to return it.
